Attn: Sarah Evans

Dear Ms. Evans:

As you are aware, all U.S. Drug Enforcement Administration ("DEA") Registrants are required by law to have a Suspicious Order Monitoring ("SOM") Program in place to monitor sales of controlled substances. As a DEA Registrant, Mallinckrodt LLC, a Covidien company ("Mallinckrodt"), has developed and maintains a comprehensive program that includes review of customer orders, IMS data and chargeback information and, where appropriate, subsequent audits of distributors' SOM Programs.

Effective immediately, Mallinckrodt will no longer process charge backs from distributor sales of Mallinckrodt's dosage pharmaceutical products to the pharmacies identified on Attachment 1 hereto. We have made this decision after careful consideration of SOM information concerning these pharmacies. We suggest that if you have sold controlled substances to any of these pharmacies, you consider conducting an on-site audit as part of your SOM Program.

We look forward to working with you to ensure that the business we conduct together meets or exceeds DEA requirements.

Thank you for your time and consideration of our request. If you have any specific questions, please contact me at (314) 654-1868.

Sincerely,

Karen Harper
